

British Pedal Car Championship

2018 Revised Number Plate Requirements

(To be read in conjunction with International Pedal Car Specification rule 11).

Each car must have number plates visible from front, rear and both sides.

All plates can either use the trial format of BLACK background, white numbers and class strip, or the old format class coloured background with white numbers. For 2019 subject to AGM approval we will revert back to coloured background plates as used pre 2018.

The background/plate can be any shape provided you meet the minimum height/width for the numbers which is height of numbers is 150mm and minimum width of stroke of each number 25mm

Pre 2018 Old Format and 2019 on

Each car must have all number plates coloured to aid class identification as follows:

PC1: BLACK background with WHITE NUMBERS

PC2: RED background with WHITE numbers

PC3: GREEN background with WHITE numbers

PC4: BLUE background with WHITE numbers

Trial Format – 2018 only

All plates are **BLACK background with WHITE NUMBERS**

The background/plate can be any shape provided you meet the minimum height/width for the numbers which is height of numbers is 150mm and minimum width of stroke of each number 25mm

A coloured strip 200mm wide x 20mm high is to be placed immediately below the number. The strip will be coloured to identify the class the car is racing.

Examples are shown at right

Black Strip	PC1 Open class
Red Strip	PC2 Under 16
Green Strip	PC3 Under 14
Blue Strip	PC4 Under 12

Where available a class sticker (similar to below) should also be displayed so it is visible from both sides.

These will be available from Scrutineer or Race Control.

In addition, the following markings are required for PC0, PCD and PCF teams:

PC0: A black capital Z, 75mm high and wide on a white square sized 100mm x 100mm

PCD: A black capital D, 75mm high and wide on a white square sized 100mm x 100mm

PCF: A black capital F, 75mm high and wide on a white square sized 100mm x 100mm

For any team having a new or “Rookie” driver

A black capital X, 75mm high and wide on a yellow square sized 100mm x 100mm

It is up to the team to ensure that they have the correct number, in the correct colours, and any additional class markings required, on the car for scrutineering and throughout each race.

For example, a PC4 team displaying PC3 number plate colours will be ineligible for PC4 points and positions; likewise a solo driver in a car without PC0 indicators will not score PC0 points.
